

ST. MARY'S HOSPICE

Our focus is providing comfort, care and support to our clients and their families so that they may live life to the fullest.

FRANCISCAN
HEALTH COMMUNITY

COMFORTING MIND, BODY AND SPIRIT

Our hospice care team provides services in a variety of settings including private homes, long-term care facilities, and assisted living facilities. Our hospice care team will make those final days, weeks, or months as comfortable and peaceful as possible.

BEREAVEMENT SUPPORT

The hospice care team offers support for family members before the death and during the grieving process that follows. Grieving is different for each individual. The compassionate care team helps family members navigate the grieving process to ensure healthy healing.

“Our hospice care team are compassionate, caring people committed to our mission of providing comforting care to our patients throughout the dying process. Simply being there, holding a hand, giving support, caring for the soul.”

VOLUNTEER SERVICES

Trained hospice volunteers are compassionate adults who provide respite visits to offer relief to caregivers, go on companion visits, help with administrative services, offer bereavement support, and run errands. To volunteer, please call 651-789-5030.

FUNDING SOURCES

St. Mary's Hospice care is funded under Medicare Part A, Medicaid, and private insurance. We also rely on financial support from a generous community of donors. For more information on donating, please contact Mike Randall, Director of Development, at 651-789-5029.

ST. MARY'S HOSPICE

COMMUNITY-BASED HOSPICE CARE

St. Mary's Hospice is located in St. Paul on the campus of Our Lady of Peace Home (formerly Our Lady of Good Counsel Home). Our hospice serves individuals in the metro area, providing care where they live.

St. Mary's Hospice is the only
Catholic-based hospice in the
metro area serving people
of all faiths.

PHILOSOPHY STATEMENT

St. Mary's Hospice believes that by meeting the needs of our patients and their families, we can reduce the burden of terminal illness and provide a comforting and spiritual end-of-life experience.
